To Chris Grayling MP and Teresa May MP

Stop gambling with justice!

In the interests of access to justice and public safety, we are calling on you to put justice before profit:

- **Stop cuts to legal aid and protect access to efficient local justice for all**
- **Halt the outsourcing of probation services and agree to pilot government reforms and payment-by-results prior to any privatisation.**
- **Keep prisons and prison services in public ownership, and stop the programme of prison closures.**
- **Stop cuts to policing and halt police privatisation.**
